

GIZ Egypt Corrective Statement

Project Access to Financial Services for Small and Medium Enterprises (PAFSME)

GIZ Egypt to Launch VC University – A Training Programme for Venture Capital

On behalf of the German Government, GIZ Egypt in collaboration with Endure Capital and Changelabs will launch VC University – a training programme designed to improve the knowledge and skills of VC fund managers. The training will help VC fund managers draw fresh capital to be invested into startups to empower them to grow and flourish.

GIZ Egypt is currently working on the details of the VC University programme as part of the activities of the Project Access to Financial Services for Small and Medium Enterprises (PAFSME) implemented with the Financial Regulatory Authority (FRA). The project component “Young Enterprise Finance” aims to improve access to finance for young enterprises, a common direction towards Egypt’s sustainable development. MSMEDA will join the VC University as observers to the programme.

Stay tuned for more details on the programme and a call for applications.

** Please note that the training programme provides technical knowledge but no funding.
