Egypt Fashion Week 2022 Statement:

Egypt Fashion Week 1st edition: “The past, present & future”

The first edition of Egypt Fashion Week blends a celebration of our civilization, a synopsis of our present and our vision for the future.

As we proudly celebrate our heritage & civilisation, we take inspiration from our culture for design, and acknowledge agriculture as the basis on which Ancient Egyptians built an empire and a civilization that throughout history inspired the world.

Yet we do not want to dwell on our past and the wealth of accomplishments and innovation, but rather look at and show the world our present, a pool of creatives, craftsmen and industry leaders that have forged a contemporary Egyptian DNA.

A present of a booming and aspiring fashion and design industry, a present of a cotton and textile industry that is not only among the core seeds of our mission to grow and promote our talents but offer high quality resources to our region and the Continent.

And most importantly we are looking at our future, projecting a vision and direction that enables us to combine our unique resources of inspiration of over 5000 years, and craftsmanship with today's know-how and fast paced technology driven trends, that allows us to be a reckoned industry player in the future.

We invite you to discover Egyptian talents and entrepreneurs for a unique journey in time and to connect, source, be inspired and to be part of our vision.
