## **Mumtada Enters Collaboration Agreement with Mass General Brigham to Advance Specialized Rehabilitation and Long-Term Post-Acute Care in Saudi Arabia**

- There is an urgent gap for rehabilitation and long-term care in Saudi Arabia, with an estimated need of 18,000 beds (2030) and USD 14bn market.
- Mass General Brigham has been selected as the collaboration partner.
- Mumtada Medical Company, aligned with Saudi Arabia's Vision 2030 healthcare transformation, will provide accessible, high-quality healthcare, and enhance the local workforce and training.
- Riyadh facility to open in 2024, with 200 beds, 27 specialized clinics and 17 dialysis units. Additional facilities across KSA are under development.

RIYADH, SAUDI ARABIA, April 25, 2024 – Mumtada Medical Company and Mass General Brigham today announced a long-term, strategic collaboration in KSA aimed at advancing rehabilitation and long-term post-acute care in the Kingdom of Saudi Arabia (KSA). The first facility will be in Riyadh, scheduled to start operations by end of this year.

Throughout the collaboration, world-renowned physicians, therapists, nurses and subject-matter experts from Spaulding Rehabilitation, a member of the Mass General Brigham health care system and the official teaching hospital of the Harvard Medical School Department of Physical Medicine and Rehabilitation, and other experts from across Mass General Brigham, will actively engage in clinical programming, workforce plan development, quality plan development, information technology, and on-site commissioning support for Mumtada.

“We are pleased to announce the collaboration with Mumtada Medical Company in shaping the future of rehabilitative care and long-term post-acute care services for patients in need of these critical services in Saudi Arabia. This collaboration underscores both Mass General Brigham’s and Mumtada’s commitment to advancing healthcare and science globally and reflects our shared vision for enhancing the quality of life for all worldwide” – Dr. Ross Zafonte, President, Spaulding Rehabilitation.

"We stand at the brink of a transformative era in healthcare within Saudi Arabia and are excited to commence this collaboration with Mass General Brigham and Spaulding Rehabilitation. In this partnership, we will apply our understanding of the Saudi population, our ability to rapidly design, develop, build operate and scale large facilities and businesses. Moreover, with the international experience of our Group CEO Dr. Aiman Shalabi and his outstanding leadership team, we are poised to transform this sector in Saudi Arabia in collaboration with the global expertise and leadership from Mass General Brigham and Spaulding Rehabilitation –” Chairman Mumtada Medical Company.

## **About Mumtada Medical Company**

Mumtada Medical Company, headquartered in Riyadh, KSA, aims to transform the healthcare model for specialized rehabilitation and Long-Term Post-Acute Care in KSA. The model will shift away from a sterile hospital setting to a patient and family centric healthcare experience with an integrated continuum of care across inpatient, outpatient, home services and virtual care.

Mumtada Rehabilitation Hospital in Riyadh will be the first by the group planned to open by end of 2024. The facility will include 200 inpatient beds, 27 outpatient clinics, 17 hemodialysis stations, diagnostic laboratory, pharmacy, radiology and multiple support units to serve the needs of patients across a wide range of medical conditions for Adults, Pediatrics, Long-term ventilated care with 24 hours ICU and HDU support.

Mumtada Medical Company is at advanced stages of announcing additional facilities across KSA to rapidly expand the footprint to provide broader access and the highest quality of care to patients in all parts of the nation.

## **About Mass General Brigham**

Based in Boston, United States, Mass General Brigham is an integrated academic health care system that connects a full continuum of care across a system of world-renowned academic medical centers, community and specialty hospitals, a health insurance plan, physician networks, community health centers, home care, and long-term care services. It is one of the United States' leading biomedical research organizations with several Harvard Medical School teaching hospitals that includes Massachusetts General Hospital, Brigham and Women's Hospital, Mass Eye and Ear, McLean Hospital and Spaulding Rehabilitation.
