Press Release

**During DRIFTx 2025 as part of Abu Dhabi Autonomous Week
Advanced Mobility Hub member of Multi Level Group and Abu Dhabi
Aviation Group of Companies announce a strategic partnership to advance
the UAE's leadership in next generation advanced air mobility solutions.**

Abu Dhabi, November 2025

During the first day of DRIFTx 2025 , a global platform for smart and autonomous mobility technologies across air, land, and sea, held at Yas Marina Circuit as part of Abu Dhabi Autonomous Week , Advanced Mobility Hub member of Multi Level Group (MLG) and Abu Dhabi Aviation Group of Companies signed a Memorandum of Understanding (MoU) to accelerate the development of advanced air mobility solutions in the UAE.

This collaboration supports the objectives of the Smart and Autonomous System Council (SAC) to advance development, deployment and use of smart and autonomous systems in the emirate, while also furthering Abu Dhabi's Economic Vision 2030 of a sustainable and integrated transportation ecosystem in smart, clean and connected mobility.

The partnership will leverage the extensive aviation heritage and operational expertise of the Abu Dhabi Aviation Group of Companies with innovation-driven capabilities of Advanced Mobility Hub a member (AMH) of Multi Level Group (MLG) MLG's . Together, the partnership will establish an integrated framework to develop, operate, and scale advanced air mobility (AAM) solutions across passenger and cargo segments using electric vertical take-off and landing (eVTOL) aircraft. The collaboration will also see the development of a vertiport network, specialized training programs, and research and development initiatives to build national expertise and support technology localization across the sector.

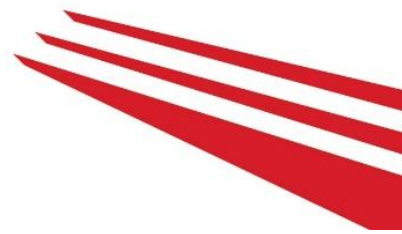

Mahmood Alhay Alhameli, CEO of Abu Dhabi Aviation Group of Companies, said:

“Our collaboration with MLG is more than a partnership, it is the beginning of a new era in air mobility. By merging our decades of aviation expertise with breakthrough technologies, we are transforming bold ideas into reality and redefining how the world connects. Together, we are driving sustainable innovation from Abu Dhabi to the world, shaping a smarter, more connected, and future-ready aviation industry.”

Mohamed Salah, CEO of Advanced Mobility Hub, said:

“We are proud to launch this strategic initiative in partnership with Abu Dhabi Aviation Group of Companies. Combining our innovation efforts with their extensive aviation expertise. Through this collaboration, we aim to strengthen an integrated air mobility ecosystem that drives innovation and investment in advanced technologies, contributing to a sustainable future and reinforcing the foundations of a new economy.”

DRIFTx serves as the region’s leading platform for showcasing the latest innovations in smart and autonomous mobility across air, land, and sea. The event is held under the patronage of His Highness Sheikh Hamdan bin Mohammed bin Zayed Al Nahyan, Deputy Chairman of the Presidential Court for Special Affairs and Chairman of the Smart and Autonomous Systems Council, underscores Abu Dhabi’s commitment to advancing its position among the world’s foremost cities leading the future of smart and sustainable transportation.
