

Beltone Investment Banking concludes EGP500 Million Securitized Bond Issuance for Jameel Finance-Egypt

Cairo – 18 May 2025: Beltone Investment Banking, a wholly owned subsidiary of Beltone Holding, has successfully arranged the first securitization issuance for Jameel Finance-Egypt under its fifth program, totaling EGP500 million. This transaction reinforces Beltone’s position as a leader in Egypt’s debt capital markets.

The issuance was structured across three tranches: Tranche A, valued at EGP120 million with a maturity period of 12 months; the second valued at EGP268 million with a 36-month maturity; and the third valued at EGP112 million with a 48-month maturity. The first tranche received a Prime 1 rating—the highest credit rating awarded by MERIS (Middle East Rating & Investors Service). Meanwhile, the second and third tranches were assigned an 'A' rating. This flexible structure provides a balanced mix of risk and return, catering to a broad range of institutional investors.

Beltone Investment Banking acted as financial advisor, lead arranger, and bookrunner for the deal, which was executed through Tamweel Securitization. Key partners included Dreny & Partners (legal advisor), Baker Tilly (external auditor), and Suez Canal Bank (custodian and placement agent), with underwriting led by Suez Canal Bank and Banque du Caire, while Beltone Asset Management participated as a subscriber.

Building on Beltone Investment Banking’s ongoing efforts to expand access to diversified and efficient financing tools, the successful closure of this transaction highlights Beltone’s commitment to supporting sustainable growth across Egypt’s debt capital markets.

Sherif Hassan, Group Treasurer and Managing Director of Debt Capital Markets at Beltone Holding, commented: “This issuance reflects our continued strategy to provide clients with tailored, market-driven funding solutions that enable long-term financial stability and flexibility. We’re proud to have partnered with Jameel Finance- Egypt part of Abdullatif Jameel Group in this debut securitization. Their trust in our capabilities is a strong endorsement of the value we aim to deliver through our debt capital markets platform. Looking ahead, we remain focused on expanding our presence in the debt capital markets through innovative structures that respond to our clients’ evolving needs and the dynamic nature of the financial landscape.”
