

With a coverage ratio of 400%+

CI Capital Asset Management successfully closes the subscription in “Misr Green – Sustainability (ESG) Fund”, Egypt’s first Sustainable Equity Fund

Cairo, Egypt – 16 July 2025

CI Capital Asset Management (CIAM), Egypt’s leading asset manager and a Forbes Top 40 asset manager in the Middle East and North Africa (MENA) region, a subsidiary of CI Capital Holding (CICH.CA), announced the successful close of the subscription in the country’s first open-ended sustainable equity fund — the “Misr Green – Sustainability (ESG) Fund” — a pioneering first of its kind product in Egypt’s investment landscape made available for individuals and institutions. The fund aims to invest in sustainability compliant EGX stocks (ESG), having surpassed the target size with a 400% coverage ratio. The company thanked its clients and partners in success for their continued trust and support.

The fund will be available for daily subscription and redemption requests starting this month, through the different Egyptian banks and CI Capital Fixed Income Brokerage, acting as receiving entities.

The fund reflects CI Capital’s commitment to supporting and contributing to Egypt’s sustainable development goals, as global studies have shown that sustainable investments outperform over the long term despite the recent challenges in some international markets.

The Misr Green – Sustainability (ESG) Fund invests in the stocks of the 30 best-performing listed companies on the Egyptian Exchange (EGX), selected for their leadership in environmental, social responsibility, and governance (ESG) standards across a diversified range of sectors.

The launch of this fund marks a significant milestone in CIAM’s leadership and innovation in the field, as it is the first ESG-focused public equity fund accessible through Egyptian banks. This initiative comes as global studies continue to show that sustainable investments outperform conventional alternatives on a risk-adjusted basis over the long term, despite recent short-term market volatility.

Upon the opening of the subscription period, Dr. Amr Abol Enein, CEO and Managing Director of CI Capital Asset Management, had commented: “The launch of the Misr Green – Sustainability (ESG) Fund is a new chapter in our ongoing effort to offer innovative, impact-driven investment products to both institutional and individual investors. We are proud to be the first asset manager in Egypt to provide a public equity fund that systematically integrates ESG principles — in line with global best practices and our internal sustainability policy,”

CI Capital Asset Management is the largest asset manager in Egypt, with the largest assets under management (AUM), the largest number of funds and mandates, and the widest product variety. The firm was ranked again among the top 40 asset managers in the Middle East for 2025 by Forbes Middle East. CIAM currently manages assets exceeding EGP 82 billion, one of the highest in Egypt, and has received multiple awards for its leadership in asset management across Egypt, the Middle East, and Africa.
