Raheel Ahmed, Group Chief Executive Officer, RAKBANK said:

Our 'digital bank with a *human* touch' strategy continues to deliver strong, record-breaking results across all fronts. We remain well capitalized with strong liquidity and excellent returns. We have, once again, achieved strong balance sheet growth and fee income. This growth reflects the strength of our diversified business model and continued balance sheet momentum. Portfolio credit quality remains robust with cost of risk improving to 0.7% in H1 2025 from 1.7% in H1 2024.

We recently launched our most premium Credit Card - Elevate - that reimagines and re-defines rewards and benefits for our Elite Customers. To provide a 'human touch', we have launched our exclusive Elite centers in Dubai, Abu Dhabi and Ras Al Khaimah - for the

convenience of our Elite customers.

As the go-to bank for small businesses and entrepreneurs, RAKBANK was named 'Best Bank for SMEs' in the UAE by Euromoney. We also partnered with Emirates Development Bank (EDB) to announce a landmark AED 1 billion co-financing initiative, unveiled at 'Make it in the Emirates', to empower UAE-based micro, small, and medium enterprises (mSMEs) and drive growth in national priority sectors. In H12025, we opened over 11,000 new accounts for entrepreneurs and small businesses and disbursed **₹ 2.54 billion** in business loans to support their growth. Additionally, we launched the second edition of the RAKBANK SME Confidence Index, providing valuable market intelligence to support and empower the SME community. We remain very grateful to our customers for their confidence and loyalty.

Our active retail customer base grew 6.8% YTD driven by enhanced engagement and a sharper focus on delivering value. Card spending surged by 10% YoY. The Bank recorded over 28 million digital logins over the last 6 months and a 15% YoY increase in digital transactions, reflecting strong customer engagement across its platforms.

We continue to broaden our Corporate Banking offering in trade finance, escrow services and Debt Capital Markets (DCM), achieving landmark transactions as bookrunner and coordinator. This has resulted in higher fee and non-funded income growth. Our Financial Institutions Group expanded into new markets with a focus on trade.

In line with the UAE's Year of Community, RAKBANK actively supports society. This includes volunteering at the RAK Autism Center and running financial literacy sessions for children. We continue to organize community events for blue-collar workers and offer microfinance solutions for underserved segments.

On the back of the UAE's strong economic fundamentals, we remain confident in delivering a solid performance in the second half of 2025, supported by our strategic execution and sustained business momentum. However, we remain cautious about the geopolitical and global economic uncertainties, including the loosening of monetary policy across key economies and its impact on margins.
