The Company was incorporated as Lulu IP SPV Limited on 23 September 2019 and its name was changed to Lulu Retail Holdings Limited on 24 November 2023. On 4 October 2024, the Company re-registered as a public company limited by shares. The registered address of the Company is PO Box 2405, 24, Al Sila Tower, Abu Dhabi Global Market Square, Al Maryah Island, Abu Dhabi, U.A.E.

The Company is majorly owned by Lulu International Holdings Limited (the “Parent Company”, together with its subsidiaries referred to as “Lulu Group”), an entity registered with Abu Dhabi Global Market (“ADGM”), under the license number 000000988, as a Private Company Limited by Shares. The registered address of the Parent Company is PO Box 2454, 24, Al Sila Tower, Abu Dhabi Global Market Square (ADGM), Al Maryah Island, Abu Dhabi, U.A.E. The Parent Company is ultimately controlled by Mr. Yusuffali Musalam Veetil Abdul Kader (the “Ultimate Controlling Party”). The Company and its subsidiaries are collectively referred to as the Group (the “Group”).

As per the resolution of the shareholders of the Parent Company dated 17 May 2023, the Parent Company transferred its GCC Retail Business to the Company (the “reorganisation”) in exchange for 4,412,983,345 shares of par value USD 1 each and a payable of USD 757,689,730 of which an amount of USD 751,469,230 was converted to shares of par value USD 1 each.

The Company acts as a head office and holding company for the entities within the Group. 2 BASIS OF PREPARATION

The interim condensed consolidated financial information for the six-month period ended 30 June 2025 has been prepared in accordance with International Accounting Standard 34, *Interim Financial Reporting*.

The interim condensed consolidated financial information does not include all information and disclosures required in the annual financial statements and should be read in conjunction with the Group’s consolidated financial statements for the year ended 31 December 2024. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the last audited consolidated financial statements for the year ended 31 December 2024. In addition, results for the six-month period ended 30 June 2025 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2025.

The interim condensed consolidated financial information has been prepared assuming that the Group will continue as a going concern, which contemplates the realisation of assets and the satisfaction of liabilities in the normal course of business. As at 30 June 2025, the Group has a working capital deficit (current liabilities exceed current assets) of USD 193 million (31 December 2024: USD 276 million). The Group has access to available bank facilities at its disposal, in the form of working capital facilities availed to enable it to meet its obligations as they fall due. Therefore, the interim condensed consolidated financial information does not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Group be unable to continue as a going concern.

The reorganisation, referred to in Note 1 above, is a common control transaction as all of the combining entities, including the Company, are controlled by the Parent Company both before and after the business combination. In absence of guidance in International Financial Reporting Standards (IFRS Accounting Standards) for business combinations under common control, this reorganisation is considered to be outside the scope of IFRS 3 *Business Combinations*. The Group has thus chosen the pooling of interest method to account for the business combination of entities under common control.

LULU RETAIL HOLDINGS PLC AND ITS SUBSIDIARIES

Notes to the interim condensed consolidated financial information

For the six-month period ended 30 June 2025 (continued)

2 BASIS OF PREPARATION (continued)

Accordingly, the comparative information presented in the interim condensed consolidated financial information of the Group is prepared on the basis that the reorganisation is in substance a continuation of the GCC Retail Business combined under the Company. The basic principle of accounting for business combinations under common control using the pooling of interest method is that the structure of ownership is discretionary, and any reorganisation thereof is without economic substance from the perspective of the controlling party. The pooling of interest method is considered to involve the combining parties being presented as if they had always been combined. To this effect, the Company accounted for the reorganisation transaction from the beginning of the period in which the combination occurs and present comparatives to include all combining entities.

Accordingly, the reorganisation is accounted for using the pooling of interest method as follows:

- The assets and liabilities of the subsidiaries or businesses, transferred to the Company, are reflected at their carrying amounts. No adjustments are made to reflect fair values, or recognise any new assets or liabilities, at the date of the acquisition date that would otherwise be recognised under the acquisition method.
- No goodwill is recognised as a result of the consolidation, except to the extent that existing goodwill was previously recognised in one of the combining entities.
- Any difference between the consideration transferred and the equity of the entity acquired as at the date of the combination is reflected within equity.
- The income statement reflects the results of the consolidated GCC Retail Business.
- The Group adopted an accounting policy to report the comparative information as if the Group always owned the businesses acquired under common control from the date when such businesses were part of the Group;
- The comparative information presented in the interim condensed consolidated financial information represents consolidation of all assets, liabilities, revenues and expenses of the subsidiaries at their carrying values by applying the principles underlying the consolidation procedures of IFRS 10 *Consolidated Financial Statements*

The comparative information presented in the interim condensed consolidated financial information has been prepared as if the Group was always combined including the transfer of the identifiable assets and liabilities of the GCC Retail Business.

For Al Falah Plaza Company-Sole Proprietorship LLC (which comprises both retail and properties business), the retail business of this entity has been transferred to the Group pursuant to the reorganisation. Accordingly, the comparative information presented in the interim condensed consolidated financial information of the Group includes carve-out financial information relating to the retail business of Al Falah Plaza Company - Sole Proprietorship LLC comprising the following:

- Separately identifiable assets and liabilities, relating to the retail business.
- Directly attributable income and costs relating to the retail business.
- Allocation of common costs on a systematic basis representing the usage of services by the retail business and the properties operations.
- Net effect of the above was recorded in retained earnings.

The reorganisation was completed in March 2024, whereby the Parent Company transferred its GCC Retail Business to the Company in exchange for 4,412,983,345 shares of par value USD 1 each and a payable of USD 757,689,730 of which an amount of USD 751,469,230 was converted to shares of par value USD 1 each. The Group has decided to maintain the reserves of the combining companies and accordingly, the difference between the value of the shares issued (being the par value of shares issued) and the capital of the entities acquired was recorded as a merger reserve within equity. On 29 March 2024, the Board of Directors of the Company decided to reduce the par value of the Company's shares from USD 1 to USD 0.028. Accordingly, an amount of USD 5,019,848 thousand was transferred from share capital to merger reserve. Pursuant to the aforesaid resolution of the Board, the merger reserve was fully adjusted against the share capital and retained earnings. On 13 June 2024, the Board of Directors of the Company decided on the sub-division of shares and further reduced the nominal value of the shares from USD 0.028 each to USD 0.014 each.

Note 3.1 provides additional information about the basis of consolidation.

Notes to the interim condensed consolidated financial information

For the six-month period ended 30 June 2025 (continued)

2 BASIS OF PREPARATION (continued)

Functional and presentation currency

The functional currency of the Company is United Arab Emirates Dirhams (“AED”). Each of the Company’s subsidiaries determines its own functional currency and items included in the financial information of the subsidiary are measured using that functional currency. Management uses United States Dollars (“USD”) for controlling and monitoring the performance and financial position of the Group and, accordingly, the interim condensed consolidated financial information is presented in USD. All amounts are rounded to the nearest thousand except where otherwise indicated.

3 MATERIAL ACCOUNTING POLICY INFORMATION

The accounting policies adopted in the preparation of this interim condensed consolidated financial information are consistent with those followed in the preparation of the Group’s consolidated financial information for the year ended 31 December 2024.

3.1 Basis of consolidation

The interim condensed consolidated financial information incorporates the financial information of the Company and entities (including structured entities) controlled by the Company and its subsidiaries. Control is achieved when the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Specifically, the Company controls an investee if and only if the Company has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns.

When the Company has less than a majority of the voting or similar rights of an investee, the Company considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee;
- Rights arising from other contractual arrangements; and
- The Group’s voting rights and potential voting rights.

The Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Income and expenses of a subsidiary acquired or disposed of during the period is included in the condensed consolidated statement of comprehensive income from the date the Company gains control until the date the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial information of subsidiaries to bring their accounting policies in line with the Group’s accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. The carrying amount of the Group’s interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the owners of the parent company.

6 SEGMENT INFORMATION

The Group's operating segments are determined based on its internal reporting to the Chief Operating Decision Maker (the "CODM"). The CODM has been determined to be the Chief Executive Officer (CEO), as all final decisions are made by the CEO in consultation with the executive committee and the function is primarily responsible for the allocation of resources to segments and assessment of performance of segments.

The Group is organized into operating segments based on geographical location. The results are reported to the board of directors of the Company. In addition, the revenue and profits are reported on a geographic basis and measured in accordance with the same accounting basis used for the preparation of the Group's consolidated financial statements for the year ended 31 December 2024. The CODM primarily uses a measure of adjusted earnings before interest, tax, depreciation and amortisation (Segment Adjusted EBITDA, see below) to assess performance of the operating segments and excludes discontinued operations, gain or loss on lease modification and termination, inter-segment management fee income/ charge and corporate head office expenses. There are 5 major reportable segments: United Arab Emirates (UAE), State of Qatar (Qatar), Kingdom of Saudi Arabia (KSA), Sultanate of Oman (Oman) and State of Kuwait (Kuwait). All other operating segments that are not reportable segments are combined under "Other operating segments" (other countries). This presentation reflects how the Group's operating performance is reviewed internally by management.

The segments are concentrated in the retail sector which includes the supply of foodstuff, meats, groceries, fruits, electrical appliances, readymade garments, perfumes & stationery and the distribution of meat and other grocery/frozen items. The associated businesses (wholesale, sourcing operations and support services) primarily support the retail operations and are reported within the respective geographical operating segment.

The reporting segments do not include the results of the discontinued operations and the assets and directly associated liabilities held for sale.

On 9 December 2022, the United Arab Emirates (UAE) Ministry of Finance ("MoF") released Federal Decree-Law No 47 of 2022 on the Taxation of Corporations and Businesses, Corporate Tax Law ("CT Law") to enact a new Corporate Tax (CT) regime in the UAE. The new CT regime became effective for accounting periods beginning on or after 1 June 2023. The taxable income of the entities that are in scope for UAE CT purposes are subject to the rate of 9% corporate tax.

Recently, in order to align with OECD's Global Minimum Tax effort (Pillar Two), the UAE Ministry of Finance (MoF) has introduced a Domestic Minimum Top-Up Tax of 15% for Multinational Enterprises (MNEs) with effect from financial years starting on or after 1st January 2025. Lulu Retail Holdings PLC and its subsidiaries are in scope of Pillar Two legislation as it operates in certain jurisdictions that have enacted or substantively enacted Pillar Two legislation and the consolidated revenue of the Ultimate Parent Company exceeds EUR 750 million threshold, therefore meet the definition of constituent entities that are a member of an MNE Group, as defined under the resolution.

The Effective Tax Rate (ETR) for the period ending 30 June 2025 is 12.04%.

As a result of the Group's assessment of the applicable requirements of the resolution, no QDMTT was recognized in the interim condensed consolidated statement of profit or loss during the six months ended 30 June 2025.

Furthermore, for the period ended 30 June 2025, the Group has applied the IASB amendment to IAS 12, Income Taxes, which provides a mandatory temporary exception from recognizing or disclosing deferred taxes related to Pillar Two.

22 FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

22 FAIR VALUE MEASUREMENT (continued)

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

Fair value for measurement and/or disclosure purposes in this interim condensed consolidated financial information is determined on such a basis, except for leasing transactions that are within the scope of IFRS 16 *Leases*, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in IAS 2 *Inventories* or value in use in IAS 36 *Impairment of Assets*. For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy. In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The Group's management considers that the fair value of financial assets and financial liabilities approximates to their carrying amounts as stated in the interim condensed consolidated statement of financial position. The assets measured at fair value include investments at fair value through other comprehensive income amounting to USD 1.37 million as at 30 June 2025 (31 December 2024: USD 1.20 million) and have been grouped into level 1 at each reporting date.

Management assessed no material change in the fair value of investment properties as at 30 June 2025 since 31 December 2024. There has been no transfer between the levels during this period.
