ADX Joins the SWIFT Network, Strengthening Global Market Access and International Investor Connectivity

- ADX goes “live” with SWIFT BIC ADSEAEADXXX

Abu Dhabi, United Arab Emirates; 25 September 2026: Abu Dhabi Securities Exchange (ADX), one of the fastest growing exchanges in the Middle East, announced it has set up its SWIFT Business Identifier Code (BIC), ADSEAEADXXX, and is now part of the global SWIFT network.

The activation of SWIFT connectivity marks a significant milestone in the ongoing enhancement of ADX’s post-trade infrastructure and reinforces its position as a globally connected marketplace. Through the SWIFT network, ADX can facilitate secure, standardized, and internationally recognized financial messaging with custodians, central securities depositories (CSDs), international central securities depositories (ICSDs), and other market participants worldwide.

This strategic development will strengthen ADX’s connectivity with the global financial ecosystem, enabling more efficient cross-border interactions and supporting international investors seeking seamless access to the UAE’s capital markets. It will also provide a robust foundation for future market infrastructure initiatives, further enhancing operational efficiency, interoperability, and global market accessibility.

The addition of the ADX to the SWIFT network aligns with the exchange’s broader strategy of expanding its international reach, deepening engagement with global institutions, and supporting Abu Dhabi’s position as a leading international financial center.
