

Announcement No. () of 2026

Date: 11/10/2026

Call for Submission of Offers to Purchase Certified Emission Reductions (CERs) Owned by the Egyptian Environmental Affairs Agency (EEAA)

As part of Egypt's efforts to support the green transition and maximize the value of (EEAA) carbon credits, the Egyptian Environmental Affairs Agency (EEAA) announces a call to companies, entities, and banks from both the public and private sectors to submit offers for the purchase of Certified Emission Reductions (CERs) owned by EEAA.

The CERs will be made available through the Voluntary Cancellation process under the Clean Development Mechanism (CDM) Registry administered by the United Nations Framework Convention on Climate Change (UNFCCC), for the purpose of offsetting the carbon footprint of various activities and projects.

This mechanism provides a direct, internationally recognized cancellation process without requiring the transfer of ownership or the opening of international registry accounts by buyers. Upon completion of the process, the buyers will receive an official Voluntary Cancellation Certificate issued by the UNFCCC Secretariat.

Full advance payment of the required amount is a mandatory condition for completing the transaction.

Offers shall be submitted on a (First Come, First Served) basis in sealed envelopes containing the required legal documentation, technical proposal, and financial offer.

Submissions must be addressed to:

H.E. the Chief Executive Officer

Egyptian Environmental Affairs Agency (EEAA)

EEAA Headquarters, Government District, New Administrative Capital, Egypt.

Submission Deadline: 31 October 2026
