INDEPENDENT AUDITOR'S REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION TO THE BOARD OF DIRECTORS OF INTERNATIONAL HOLDING COMPANY PJSC

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of International Holding Company PJSC (the "Company") and its subsidiaries (the "Group") as at 30 September 2026 and the related statements of profit or loss, comprehensive income, changes in equity and cash flows for the nine-months period then ended. Management is responsible for the preparation and presentation of this interim financial information in accordance with International Accounting Standard 34 Interim Financial Reporting (IAS 34). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with IAS 34.

2 BASIS OF PREPARATION

2.1 Statement of compliance

These interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34, Interim Financial Reporting.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual consolidated financial statements prepared in accordance with IFRS Accounting Standards and should be read in conjunction with the Group's annual consolidated financial statements as at 31 December 2025. In addition, results for the nine month period ended 30 September 2026 are not necessarily indicative of the results for the year ending 31 December 2026.

These interim condensed consolidated financial statements have been prepared on the historical cost basis, except for investments in financial assets carried at fair value through profit or loss, financial assets carried at fair value through other comprehensive income, other financial assets at fair value, biological assets, derivative financial instruments and digital assets which are stated at fair value.

The interim condensed consolidated financial statements are presented in United Arab Emirates Dirhams (AED), which is the presentation currency of the Group and the functional currency of the Company. All the values are rounded to the nearest thousand (AED '000) except when otherwise indicated.

2.2 Basis for consolidation

The interim condensed consolidated financial statements of the Group comprise the financial information of the Company and its subsidiaries.

Control is achieved when the Group:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Group has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally.

The Group considers all relevant facts and circumstances in assessing whether or not the Group's voting rights in an investee are sufficient to give it power, including:

- the size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Group, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the period are included in the interim condensed consolidated statement of profit or loss from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

2 BASIS OF PREPARATION continued

2.2 Basis for consolidation continued

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets and liabilities of the subsidiary and any non-controlling interests. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable IFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under IFRS 9, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Details of the Company's subsidiaries as at 30 September 2026 are consistent with the year ended 31 December 2025 consolidated financial statements. The new subsidiaries incorporated and acquired during the period are as follows:

3 SUMMARY OF MATERIAL ACCOUNTING POLICY INFORMATION

3.1 New standards, interpretations and amendments adopted by the Group

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2025, except for the adoption of the following amendments effective as of 1 January 2026.

- Amendments to IFRS 9 and IFRS 7: Classification and Measurement of Financial Instruments
- Amendments to IFRS 9 and IFRS 7: Contracts Referencing Nature-dependent Electricity
- Annual improvements to IFRS Accounting Standards – Volume 11

The amendments had no significant impact on the interim condensed consolidated financial statements of the Group.

3.2 Standards issued but not effective

The new and amended standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Group's interim condensed consolidated financial statements are disclosed below. The Group intends to adopt these new and amended standards and interpretations, if applicable, when they become effective.

- IFRS 18: Presentation and Disclosure in Financial Statements
- IFRS 19: Subsidiaries without Public Accountability: Disclosures
- IFRS 20: Regulatory Assets and Regulatory Liabilities
- Amendments to IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture
- Amendments to IAS 21 The Effects of Changes in Foreign Exchange Rates: Translation to a Hyperinflationary Presentation Currency
- Amendments to IAS 28 Investments in Associates and Joint Ventures: Fair Value Option
- IFRS S1 General Requirements for Disclosure of Sustainability-related Financial Information
- IFRS S2 Climate-related Disclosures

The Group does not expect that the adoption of these new and amended standards and interpretations, other than IFRS 18, will have a material impact on its interim condensed consolidated financial statements. The Group is currently working to identify the impacts IFRS 18 will have on the interim condensed consolidated financial statements and its notes.

3.3 Significant accounting estimates and judgements

The preparation of the interim condensed consolidated financial statements in conformity with the IFRS Accounting Standards requires management to make judgment, estimates and assumptions that affect the application of accounting policies and reported amounts of financial assets and liabilities and the disclosure of contingent liabilities. These judgments, estimates and assumptions also affect the revenue, expenses and provisions as well as fair value changes. Actual results may differ from these estimates.

These judgments, estimates and assumptions may affect the reported amounts in subsequent financial years. Estimates and judgments are currently evaluated and are based on historical experience and other factors.

In preparing these interim condensed consolidated financial statements, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty are the same as those applied to the consolidated financial statements as at and for the year ended 31 December 2025.

3.4 Geopolitical events

During the period, certain geopolitical tensions in parts of the Middle East have been noted. Management is actively monitoring the situation and the Group remains confident in the resilience of its operations. Given the rapidly changing circumstances, it is currently not possible to reliably estimate any potential financial impact on the Group. Management will continue to closely monitor the situation and assess any implications for the Group's operations, financial position, and financial performance.

Share of profit for the period[(b)]	**1,367,027**	1,211,406
	1,275,641	1,211,406

(a) During the period, the Group recognised a net decrease of AED 91,386 thousand in its investments in associates, with a corresponding net loss recognised in the interim consolidated statement of profit or loss, due to the following:

- During the period, Grupo Nutresa S.A. undertook a share buyback tranche, increasing the Group's ownership interest from 14.83% to 15.02% and resulting in reduction of AED 141,854 thousand in the Group's share of the associate's net assets.

  Further, Grupo Nutresa S.A. issued 6,114,816 new preference shares during the period to a third party, diluting the Group's economic ownership from 15.02% to 14.82%, while its voting interest remained unchanged at 15.02%. The issuance resulted in a gain on deemed disposal of AED 263,860 thousand.

  Following the issuance of the preference shares, Grupo Nutresa S.A. undertook a further share buyback tranche, increasing the Group's economic ownership interest from 14.82% to 14.93% and its voting interest from 15.02% to 15.13%, resulting in reduction of AED 157,703 thousand in the Group's share of the associate's net assets.

  Other adjustments to the equity of the associate resulted in a further reduction of AED 18,533 thousand to the Group's share of the associate's net assets.
- During the year ended 31 December 2025, Pure Health Holding PJSC ("Pure Health") granted cash-settled put options to the non-controlling interests ("NCI") of two of its subsidiaries, enabling the NCI to sell their shares at future dates at prices determined based on agreed performance measures. Accordingly, Pure Health recognised financial liabilities at the present value of the estimated exercise prices and derecognised the related NCI. During the period, the associate's net assets reduced by AED 84,417 thousand, as a result of remeasurement of the financial liability, of which AED 35,096 thousand was the Group's share of the reduction.
- During the period, Response Plus Holding repaid AED 5,695 thousand of shareholders contributions previously provided by other shareholders, resulting in a reduction in its net assets. The Group's share of the reduction amounted to AED 2,060 thousand.

(b) Included in the share of profit for the period ended 30 September 2025 is an amount of AED 98,581 thousand related to discontinued operations (note 15.2).

(iii) During the period, the Group performed impairment assessment for investment in associates and joint ventures and concluded the following:

13 OTHER FINANCIAL ASSETS AT FAIR VALUE

IRH Global Trading Ltd, a subsidiary of the Group, made payments under an offtake agreement with a commodity producer (entered in January 2025), pursuant to which the underlying commodities were delivered to the Group. Simultaneously, under separate agreements, the commodity producer assigned the Group the responsibility for fulfilling delivery obligations to the end customer and collecting payments from them. Additionally, any unsold goods held by the Group are contractually required to be repurchased by the commodity producer. Furthermore, the contract was renewed in November 2025 and continues in place.

Based on the terms of the agreement, these payments are subject to periodic remeasurement by reference to prevailing market prices, incorporating an embedded derivative feature linked to commodity price fluctuations. As a result, the cash flows from the financial asset are not solely payments of principal and interest ("SPPI"), and the financial asset does not meet the SPPI test. Consequently, the arrangement is measured in its entirety at fair value through profit or loss under IFRS 9. The fair values of these receivables are derived from observable market inputs comprising average cost and freight prices calculated based on assessments published in Platts Steel Markets Daily. These receivables are categorised within level 2 of the fair value hierarchy.

Given that the arrangement results in exposure to commodity prices being borne by the commodity producer and this will be reflected within the forthcoming invoice that will be issued to the Group, the mark-to-market valuation changes for the period ended 30 September 2026 amounting to AED 12,999 thousand (31 December 2025: AED 7,749 thousand) arising at the reporting date are included in trade and other payables.

Furthermore, interest income of AED 60,784 thousand (30 September 2025: AED 56,417 thousand) was recognised in respect of these agreements.

Movement during the period / year is as follows:

	(Unaudited) 30 September 2026 AED'000	*(Audited) 31 December 2025 AED'000*
Balance at the beginning of the period / year	**371,514**	-
Payments during the period / year	**284,467**	1,978,062
Billings issued during the period / year	**(548,504)**	(1,614,297)
Change in fair value	**(12,999)**	7,749
Balance at the end of period / year	**94,478**	371,514

During the period, the Group and the commodity producer entered into an agreement to offtake certain quantities of the same commodity at fixed prices. As a result of this agreement, the contractual cash flows relating to this portion of the receivable is fixed and determinable and meets the SPPI criteria, and hence, accounted for at amortised cost (note 9).

14 CONTRACT ASSETS

Amounts relating to contract assets are balances due from customers under contracts that arise when the Group receives payments from customers in line with a series of performance related milestones. The Group will previously have recognised a contract asset for any work performed. Any amount previously recognised as a contract asset is reclassified to trade receivables at the point at which it is invoiced to the customer.

19.1 Hybrid equity instruments

Aldar Investment Properties LLC, a subsidiary, had issued hybrid equity instruments in two tranches to an investor ("Noteholder") worth USD 500 million (the "Notes"). As per the terms of the agreement, the Notes do not have any maturity date and the Group may elect at its sole discretion not to pay interest on the Note and the Noteholder does not have a right to claim such interest. Such event will not be considered an Event of Default. Pursuant to the terms and conditions of the agreement, the instrument is classified as hybrid equity instrument in line with the requirements of *IAS 32 Financial Instruments: Presentation*.

Issuance period	Issued amount	Coupon rate
March 2022	USD 310.5 million (AED 1,140 million)	Fixed interest of 5.625% with a reset after 15 years
April 2022	USD 189.5 million (AED 696 million)	Fixed interest of 5.625% with a reset after 15 years

Coupon amounting to AED 41,889 thousand (30 September 2025: AED 103,289 thousand) was paid during the period.

During the period, Aldar Investment Properties LLC entered into an agreement with the Noteholder pursuant to which the existing Notes with a carrying amount of USD 500,000 thousand (AED 1,836,969 thousand) were repurchased and cancelled. Accordingly, the obligations under the Notes have been fully settled and derecognised.

Concurrently, the Group issued a new dated hybrid instrument to the investor with a principal amount of USD 1,000,000 thousand (AED 3,672,500 thousand). The transaction was executed and settled on a net settlement basis (note 22.2). Based on an assessment conducted by the issuer over the terms of the new instrument, it was concluded that the derecognition of the existing Notes and recognition of the new dated hybrid instrument did not result in any gain or loss in the interim consolidated statement of profit or loss.

19 OTHER EQUITY INSTRUMENTS continued

19.2 Advances received convertible into shares

Advances received convertible into shares, are amounts received from prospective investors by Two Point Zero Holding RSC Limited ("Two Point Zero"), a subsidiary, which are intended to be converted into equity shares of Two Point Zero at a future date and do not carry any guaranteed return or yield. Accordingly, they were initially classified as equity instruments in line with the requirements of IAS 32 Financial Instruments: Presentation. Movement during the period / year is as follows:

	(Unaudited) 30 September 2026 AED'000	*(Audited) 31 December 2025 AED'000*

20 RELATED PARTY BALANCES AND TRANSACTIONS continued

20.2 Transactions continued

Other transactions:

During the period, the Group undertook the following transactions involving non-controlling interests:

- Aldar Properties PJSC, a subsidiary, entered into various agreements with third parties under which the third parties contributed plots of land, resulting in total additions of AED 1,616,323 thousand to plots of land held for sale. The non-controlling interest share of these contributions, amounting to AED 1,443,704 thousand, was recognised within equity as additional contribution by non-controlling interest.
- Aldar Investment Properties LLC, a subsidiary, and the 40% non-controlling interest in Masdar Green REIT (CEIC) Limited made equity contributions amounting to AED 669,800 thousand. The Group recognised an increase in non-controlling interest of AED 267,920 thousand, representing 40% share of the contribution.
- The non-controlling interest of a partially owned subsidiary made a contribution amounting to AED 79,984 thousand. The contribution is non-interest bearing, has no fixed repayment terms and is repayable only at the discretion of the entity, subject to the availability of distributable profits. As the contribution does not give rise to a contractual obligation on the Group to deliver cash or another financial asset, it is classified as equity in accordance with IAS 32.
- The non-controlling interest in certain partially owned subsidiaries made further equity contributions amounting to AED 101,012 thousand, which resulted in an increase in non-controlling interest.

The above amounting to AED 1,892,620 thousand is recorded as additional contributions by non-controlling interest in the interim condensed consolidated statement of changes in equity.

29 TAXATION

The Group recognised the period income tax expense based on management's estimate using the tax rate that would be applicable to the expected total annual earnings. The taxable income of the entities that are in scope for UAE Corporate Tax purposes is subject to the rate of 9% corporate tax. The 0% corporate tax rate applies to the qualifying income of Free Zone entities.

Effective 1 January 2025, in order to align with OECD's Global Minimum Tax effort (Pillar Two), MoF introduced a Domestic Minimum Top-Up Tax of 15% for Multinational Enterprises. The Group and its Ultimate Parent are in scope for Pillar Two legislation as it operates in certain jurisdictions that have enacted or substantively enacted Pillar Two legislation and its consolidated revenue exceeds the threshold of EUR 750 million.

30 FAIR VALUE MEASUREMENT

Fair value of the Group's assets that are measured at fair value on recurring basis

Some of the Group's financial assets are measured at fair value at the end of the reporting period. The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable and gives information about how the fair value of these financial assets are determined.

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).
