

CCC Egypt acquires leading architectural aluminum and glass manufacturer – AluNile and taps industry leader Ahmed El-Guindy as CEO in a strategic move within the region’s construction and building materials sector

Cairo, Egypt – [30 March 2026] – **CCC Egypt, part of Consolidated Contractors Company (CCC)**, has acquired a majority stake in **Nile Aluminum and Metals Co. SAE (AluNile)**, one of Egypt’s leading manufacturers of architectural aluminum and glass, as well as a prominent building facades contractor.

This acquisition marks a significant step in **CCC Egypt’s** strategy to expand its presence across the construction and building materials value chain, supporting vertical integration with its core construction business. The move is aimed at capturing growing demand driven by urban development across Egypt and the wider region.

A Strategic Acquisition

AluNile brings a comprehensive portfolio of products and services, along with a strong track record in Egypt’s building envelope sector. Its offerings include integrated aluminum systems, structural glazing, curtain walls, skylights, doors and windows, and metal cladding. The company serves a diverse client base across government and private sector projects, including landmark developments. Combined with **CCC Egypt’s** extensive project portfolio, group regional presence, and expertise in delivering large-scale construction projects, the acquisition is well-positioned to offer fully integrated solutions across the construction value chain. This collaboration will enhance operational capabilities, drive efficiencies, and support the delivery of high-quality projects to meet increasing demand across key regional markets”

Commenting on the acquisition, **Mohamed Tarek, Area Managing Director for Egypt & Africa at CCC Group**, said:

“We are strong believers in Egypt’s construction market and have invested significantly over the past three decades. This acquisition reflects our continued commitment to Egypt and the region, and supports our strategy to provide integrated, end-to-end solutions that meet evolving market needs.”

Mahmoud Abdeen, General Manager of CCC Egypt, added:

“We have a long-standing relationship with **AluNile**, which provides a strong foundation for this partnership. Together, we aim to build on the company’s success, further enhance its capabilities, and position it as a regional leader in its field.”

As part of this new phase, **CCC Egypt** has appointed **Ahmed El-Guindy** as CEO and Managing Partner of **AluNile**. A respected industry leader, **Ahmed El-Guindy** previously led the company’s growth from 2017 to 2025.

Commenting on his appointment, **Ahmed El-Guindy** said:

It brings me extreme pride and pleasure to be reunited with the company to be part of its exciting new phase. This acquisition is a testament of the new investor's conviction in **AluNile's** management team, manufacturing capabilities and established clients relations. My main focus would be integrating **CCC's** renowned management systems with **AluNile's** leadership to boost its operational capabilities and efficiency towards delivering high-quality solutions to a growing market, as well as setting the right platform to grow its investments across other building materials and construction segments with the aim to unlock new partnerships and employment opportunities across Egypt and abroad. I am confident the current management team led by **Yasser Magdy – AluNile General Manager** – and the rest of **AluNile's** over 1,000 direct employees would continue their amazing work which is an integral part of our plans and targets for our great company”
