**MBH advises Scatec on equity partnership agreement with National Bank of Egypt for Obelisk hybrid project in Egypt**

We are pleased to announce that Matouk Bassiouny & Hennawy ("MBH") acted as legal counsel to Scatec ASA, a leading renewable energy solutions provider, in connection with a shareholder agreement with National Bank of Egypt ("NBE") for an equity partnership in Scatec's 1.1GW solar and 100MW/200MWh battery storage hybrid project, Obelisk in Egypt.

Following the transaction, NBE holds a 20% economic interest in the project. Scatec retains a 40% economic interest while maintaining majority control through a layered ownership structure, with the remaining stakes held by EDF power solutions (20%) and Norfund (20%).

The transaction reflects growing local institutional participation in Egypt's renewable energy sector and supports Scatec's strategy of bringing in high-quality partners to optimize capital structure while retaining control of core assets.

The MBH team advising on the transaction was led by Hazem El Guindi (*Partner*) on the corporate section, and Mahmoud Bassiouny (*Regional Managing Partner Group Head of Finance & Projects*) and Iman Nassar (*Senior Associate*) on the financing section.
